

## Behnam Kamkar

TeleFax: +98 (51) 38805767

Mobile: +98-9112734153

Email: kamkar@um.ac.ir, behnam.kamkar@gmail.com

Postal address:

Azadi Square, Mashhad, Razavi Khorasan Province, Iran. Postal code: 9177994798, Department of Agro-technology, Faculty of Agriculture, Ferdowsi University of Mashhad, Iran.

### Personal

**Family Status:** Married, 1 child

**Nationality:** Iranian

**Date of Birth:** 1 August 1975

**National code:** 467-967293-5

**Last scientific degree:** Professor, Agroecology

### My Author's IDs

[ORCID](#): 0000000313098433

[Scopus AuthorID](#): 26429674100

[ResearcherID](#): AAD-7468-2020

[Google Scholar Link](#): <https://scholar.google.com/citations?hl=en&user=GOn2nrcAAAAJ>

### Educational history

**B.Sc.** of agronomy and plant breeding, Shar-e-kord University (Iran), 1994-2000. B.Sc. project: the principles of sustainable agriculture.

**M.Sc.** of agronomy on abiotic stresses, Ferdowsi University of Mashhad (Iran), 2000-2002.

**M.Sc. project:** Determination of the most sensitive developmental stage of wheat to salinity stress (under Supervisory of Dr. Mohammad Kafi).

**Ph.D.**, Agroecology, Ferdowsi University of Mashhad(Iran), 2002-2006.

**Ph.D. project:** Application of a system approach (simulation models) to evaluate potential yield and yield gap of Cumin and three millet species (A case study in Northern, Razavi, and Southern Khorasan provinces). (Under supervisory of Prof. A.R. Koocheki, and Dr. M. Nassiri Mahallati.)

### **Additional passed courses**

Modeling course in CSIC center of Cordoba University, Spain. Feb 2003- August 2004.

### **Work experience**

The faculty member of Gorgan University of Agricultural Sciences and Natural Resources (07 Nov 2005-08 March 2020)

The faculty member of the Ferdowsi University of Mashhad (08 March 2020-continues)

### **Training experiences**

#### **B.Sc. courses**

- 1- General Ecology
- 2- Industrial crops production
- 3- Dryland farming
- 4-Agricultural ecology
- 5- water-soil-plant relationship
- 6- The principles of Sustainable agriculture
- 7-Soil-water-plant relationships

#### **M.Sc. courses**

- 1- Cropping pattern design approaches
- 2- Advanced agroecology
- 3-Ecoagriculture principles
- 4-Research methods in agronomy
- 5-Research methods in Agroecology
- 6-Professional English Course
- 7-GIS application in Agriculture
- 8-Remote sensing in agriculture
- 9-landscape ecology

#### **Ph.D. courses**

- 1-Ecophysiology of competition between crops and weeds
- 2-Microclimatology
- 3-Agroecosystems evaluation
- 4- GIS and RS application in agriculture
- 5-Agroecosystems assessment
- 6-crop simulation modeling
- 7-Production ecology

### **Research interests**

- 1- Crop ecology and ecophysiology
- 2- Simulation models of crops growth and development
- 3- Sustaining environment to sustain agroecosystems
- 4- Sustainable Agroecosystems design and management
- 5- GIS and RS application in agriculture
- 6- Climate change effects on the agroecosystems

### **Other Experiences:**

- Associate Editor, International Journal of Plant Production, Springer.
- Member of the Editorial Board of the Iranian Journal of Applied Crop Research
- Member of the Editorial Board of the Journal of Advances in Plants & Agriculture Research (USA)
- Member of the Editorial Board of the Iranian Journal of Plant Production Research
- Member of the Editorial Board of the Iranian Journal of Crop Production (with Crop Science Society of Iran).
- Member of the Editorial Board of the Iranian Journal of Dryland Agriculture
- Member of the Editorial Board of the Iranian Journal of Crop Sciences (Crop Science Society of Iran)
- Instructor of the National Workshop on the Application of GIS in Agriculture (2020)
- Instructor of the National Workshop on Principles and Basics of Application of Crop Simulation Models (2021).
- Board Of Directors of Eco-agriculture Scientific Society of Iran.
- Winner of The best-translated book of Iranian students, 2002.
- Manager of research and education farms of Gorgan University of Agricultural Sciences and Natural Resources (GUASNR).
- Head of agronomy Dept., GUASNR (from 2006- Feb 2010).
- The member of the University Press commission, GUASNR.
- Scientific chief of 2<sup>nd</sup> National Congress of Ecological Agriculture, Held in GUASNR, 2007.
- Elite researcher of GUASNR, 2007, 2008, 2011, 2012, 2014, 2016.
- Elite researcher of Agrotechnology Dept., Ferdowsi University of Mashhad (2021).
- The member of the Elite committee of Crop Science college of GUASNR.
- Scientific member of 9<sup>th</sup> national crop science congress, be held in Sep 2008.
- The member of the Scientific member's selection committee of GUASNR (Agriculture branch)
- Winner of the yearbook of Khorasan, 2009& 2010.
- Head of Informatics and Computer Services Department, Gorgan University of Agricultural Sciences and Natural Resources (2012-2019).
- Board Of Directors of the Crop Science Society of Iran (CSSI). From 2022-continued

**and more than 40 other papers**

### **3) International and national Congresses**

1. Determination of the most sensitive developmental stage of wheat (*Triticum aestivum*) to salt stress to optimize saline water utilization. 4<sup>th</sup> International Crop Science Congress (ICSC), 20 Sep to 1 Oct 2004, Brisbane, Queensland, Australia.
2. Evaluation of possibility of amaranth production in arid and semi-arid of Iran. *Asian J. Plant Sci.* 2005 (under press).
3. The relationship between corm weight and total flower and leaf number in saffron. 2th International Symposium on Saffron Biology and Technology (ISSBT), 28-30 October 2006, Mashhad, Iran.
4. The effect of corm weight and environmental temperature on flowering behavior of saffron. 2th International Symposium on Saffron Biology and Technology (ISSBT), 28-30 October 2006, Mashhad, Iran.
5. The study of relationship between development period and sensitivity of leaf photosynthesis and stomatal conductance to different salinity severity and exposure durations in wheat to improve saline water utilization. International Research on Food Security, Natural Resource Management and Rural Development, Prosperity and Poverty in a Globalized World, Challenges for Agricultural Research; University of Bonn, Bonn Institute of Crop Science and Resource Conservation; October 11 – 13, 2006.
6. Evaluation of cumin yield gaps by modeling approach. International Research on Food Security, Natural Resource Management and Rural Development, Prosperity and Poverty in a Globalized World, Challenges for Agricultural Research; University of Bonn, Bonn Institute of Crop Science and Resource Conservation; October 11 – 13, 2006.
7. Effects of salinity and temperature on germination of three millet varieties of semi-arid regions. 2008. 5<sup>th</sup> International Crop Science Congress, April 13-18, 2008, International Convention Center (ICC), Jeju, Korea.
8. Evaluation of competitive ability in some canola (*Brassica napus*) cultivars with wild mustard (*Sinapis arvensis*) and relationship with canopy structure. 2008. 5<sup>th</sup> International Crop Science Congress, April 13-18, 2008, International Convention Center (ICC), Jeju, Korea.
9. Constructing and evaluation of two mechanistic models to predict phonological stages of three millet varieties. 2008. 5<sup>th</sup> International Crop Science Congress, April 13-18, 2008, International Convention Center (ICC), Jeju, Korea.
10. Determination of competitive ability of canola cultivars against wild mustard (*Sinapis arvensis*) using some empirical models in Golestan province, Iran. 2008. 5<sup>th</sup> International Crop Science Congress, April 13-18, 2008, International Convention Center (ICC), Jeju, Korea.

11. Application of N and P Biofertilizers in Sustainable Nutrient Management of savory (*satureja hortensis*). 2008. Competition for Resource in a Changing World: New drive for Rural Development. October 7-9, 2008, Stuttgart-Hohenheim, Germany.
12. Sustainable Nutrient Management of Marjoram (*Origanum majorana L.*) through Biofertiliser and Manure Application. 2008. Competition for Resource in a Changing World: New drive for Rural Development. October 7-9, 2008, Stuttgart-Hohenheim, Germany.
13. The effects of Plant Density on Yield and Yield Components of Grain Amaranth. 2009. Biophysical and socio-economic frame conditions for the sustainable management of natural resources, October 6-8, 2009, University of Hamburg, Germany.
14. Modeling Seed Aging Effects on Wheat Emergence under Drought Stress Condition. 2009. Biophysical and socio-economic frame conditions for the sustainable management of natural resources, October 6-8, 2009, University of Hamburg, Germany.
15. Estimating the Range of Cardinal Temperatures, critical Photoperiod and Photoperiod sensitivity Coefficients of Seven Wheat Cultivars. 2009. Biophysical and socio-economic frame conditions for the sustainable management of natural resources, October 6-8, 2009, University of Hamburg, Germany.
16. Non-Destructive Estimation of Maize Leaf Area, Fresh Weight, and Dry Weight Using Leaf Length and Leaf Width. 2009. Agriculture Congress, 27-29 oct 2009, Seri Kembangan Selangor, Malaysia.
17. MokhtarpouR, H., Teh, C.B.S., Saleh,G., Selamat, A.B., Asadi, M.E., Kamkar, B. 2010. Temperature effect on yield and yield components in field-grown maize in different planting densities. CAAS 2010, 27-29 Oct., Singapore.
18. MokhtarpouR, H., Teh, C.B.S., Saleh,G., Selamat, A.B., Asadi, M.E., Kamkar, B. 2010. Corn yield response to seven planting densities and two cropping systems. MSPPC 2009, SeriKembangan Selangor, Malaysia.
19. Ghadirian, R., Bakhshandeh, E., Kamkar, B., Golchin, E. 2010. Leaf Area Estimation by Leaf Dry Matter in Soybean (*Glycine max L.*). IFLRC V&AEP VII, 26-30 May. Antalya, Turkey.
20. Safahani Langeroudi, A.R., Daneshmand, A.R., and Kamkar, B. 2010. The effects of Irrigation Regimes and Nitrogen Rates on some Agronomic Traits of two Rapeseed Cultivars. Tropentag 2010. Zurich, Switzerland.
21. Akbari, F., Kamkar, B., Movahedi Naeini, S.AR.2010. The effect of crop residues on the dynamism of soil microbial communities. Tropentag 2010. Zurich, Switzerland.
22. Bidadi, M.J., Sardaghi, M., Meghdadi, N. , Kamkar, B. 2012. Using GIS to map soil organic matter and nitrogen content to prevent cultivation effects on soil quality. 8<sup>th</sup> International Soil Science Congress "Land degradation and Challenges in Soil management", 15-17 May 2012, Cesme\_Izmir, Turkey.
23. Meghdadi, N., Bidadi, M.J., Sardaghi, M., Kamkar, B. 2012. Using EC-Based Maps to Manage Soil and Prevent Soil Degradation. 8<sup>th</sup> International Soil Science Congress "Land degradation and Challenges in Soil management", 15-17 May 2012, Cesme\_Izmir, Turkey.
24. Sardaghi, M., Meghdadi, N., Bidadi, M.J., Kamkar, B., Yousefi, M., 2012. Mapping the Nutrients Distribution to Reduce Cultivation Practices and Land Degradation Using Geospatial Information System (GIS). 8<sup>th</sup> International Soil Science Congress "Land degradation and Challenges in Soil management", 15-17 May 2012, Cesme\_Izmir, Turkey.
25. Yousefi, M., Kamkar, B., Gherekhloo, J., Faez, R., Sardaghi, M., 2012. The effect of different cultivation methods on soil microbial respiration and organic C content as two main components for alleviating soil degradation. 8<sup>th</sup> International Soil Science Congress "Land degradation and Challenges in Soil management", 15-17 May 2012, Cesme\_Izmir, Turkey.
26. Kazemi Poshtmasari, H., Tahmasebi Sarvestani, Z., Kamkar, B., Shataei, Sh., Sadeghi, S.2012. Comparison of interpolation methods for estimating N, P, and K in agricultural lands of Golestan province, north of Iran. 8<sup>th</sup> International Soil Science Congress "Land degradation and Challenges in Soil management", 15-17 May 2012, Cesme\_Izmir, Turkey.
27. Meghdadi, N., Soltani, A., Kamkar, B.2012. An Investigation on the effects of elevated CO<sub>2</sub> and temperature on chickpea yield in Zanjan. 1th Int. Conf. Environmental crisis and its solution.

....and 107 papers in national congresses (not included in detail)

38	Iman Emarloo	Effect of Citric Acid, Ethanol, and methanol on characters on tomato ( <i>Lycopersicon esculentum</i> L. var. <i>supra</i> ).	Mashayekhi, K	<b>Kamkar, B</b> , and Galeshi, S	2013	M.Sc.	GUANSR
39	Zenab Keykha	The effect of sucrose and boric acid on seedling and fruit quality of tomato ( <i>Lycopersicon esculentum</i> Mill)	Mashayekhi, K	Movahedi Naeini, SA and <b>Kamkar, B</b>	2013	M.Sc.	GUANSR
40	Alireza Rezaei Hossein Abad	An investigation of the relationship between soil nutrients and wheat yield using the Geographical Information System (GIS)	<b>Kamkar, B</b>	Abdi, O	2013	M.Sc.	GUANSR
41	Safoura Batouei	Effect of cover crop on weed control, soil properties, and cotton yield	Gherekhloo, J	<b>Kamkar, B</b>	2013	M.Sc.	GUANSR
42	Esmail Mohammadi Ahmad-Mahmoudi	Monitoring biomass production in wheat fields in army field of Golestan province using Geographical Information System and Remote Sensing	<b>Kamkar, B</b>	Abdi, O	2013	M.Sc.	GUANSR
43	Nikta Najjari Kalantari	Identification of resistant weeds to ACCase and ALS inhibitors in wheat fields of Aq Qala and preparing their distribution map	Gherekhloo, J	<b>Kamkar, B</b>	2013	M.Sc.	GUANSR
44	Razieh Kiani Dehkordi	Effect of abscisic acid, ethephon, 1-methyl propane cyclotron, Theo silver sulfate, and potassium permanganate on the vegetative and reproductive growth of lettuce	Mashayekhi, K	<b>Kamkar, B</b>	2013	M.Sc.	GUANSR
45	Mahin Nozarinezhad	Predicting wheat emergence as affected by temperature, moisture, and sowing depth	Zeinali, E, and Soltani, A	<b>Kamkar, B</b> , and Soltani, E	2013	M.Sc.	GUANSR

46	Seyed Esmaeil Razavi	Investigating the decomposition of crop residues from rice, wheat, cotton, canola, and soybean using four fungal decomposers under laboratory conditions	<b>Kamkar, B</b>	Sadeghipour, H.R	2014	Ph.D.	GUANSR
47	Salim Farzaneh	Study of the relationships among phonological, morphological, and physiological characters of sugar beet parents on seed quality and quantity	<b>Kamkar, B</b>	Ghaderi-FAR, F, Chegini, M.	2014	Ph.D.	GUANSR
48	Mesam Badsar	Yield gap estimation in wheat fields using GIS, RS, and SSM model (A case study: Qaresto basin, Gorgan distinct).	<b>Kamkar, B</b>	Soltani, A, and Abdi, O	2014	M.Sc.	GUANSR
49	Ayoub Ghorbani Dehkordi	Effect of boron, $\text{KNO}_3$ , and salicylic acid by several concentrations of sucrose on the qualitative and quantitative parameters of tomato plant in great Daland farm	Mashayekhi, K	<b>Kamkar, B</b>	2014	M.Sc.	GUANSR
50	Said Mahmoudan	Comparison of wheat yield between common and modern wheat cropping systems using Geospatial Information System approach	<b>Kamkar, B</b>	Abdi, O	2014	M.Sc.	GUANSR
51	Niloufar Nasroallah	Feasibility of ley-farming performance in Aq-Qala by the geographical information system (GIS)	Gherekhloo, J	<b>Kamkar, B</b>	2014	M.Sc.	GUANSR
52	Behzad Zafari Ghalehrodkhani	Effect of plant density on the allometric relationship in wheat	Soltani, A	Zeinali, E, and <b>Kamkar, B</b>	2014	M.Sc.	GUANSR
53	Roya Kalami	Identification of resistant weeds to ACCase and ALS inhibitor herbicides in wheat fields of Kordkoy	Gherekhloo, J	<b>Kamkar, B</b> , and Esfandiyarpoor, E	2014	M.Sc.	GUANSR
54	Mohammad Ali Dorri	Determination of milk thistle responses to environmental factors in different sowing dates and its cultivation suitability assessment in four basins of Golestan province	<b>Kamkar, B</b>	Aghdasi, M	2015	Ph.D.	GUANSR
55	Mohammad Taghi Feyzbakhsh	Evaluation of DSSAT model in different soil water coefficients and different sowing dates on corn	<b>Kamkar, B</b>	Mokhtarpour, H., and Asadi ME	2015	Ph.D.	GUANSR
56	Mahmoud Mamashli	Zoning and feasibility of tulip cultivation in Golestan province using GIS	Zarei, H	Faramarzi, H, and Soltani, A	2015	M.Sc.	GUANSR
57	Robabeh Ghaffari Darbandi	Land Suitability Analysis for Fennel Production ( <i>Foeniculum vulgar Mill</i> ) in the	<b>Kamkar, B</b>	Abdi, O, and Khormali, F	2015	M.Sc.	GUANSR

		North, Razavi, and South Khorasan provinces ( Iran) Using Geographical Information System					
58	Hoda Zolfagharnejad	Estimation of wheat water requirement using GIS and RS (A case study in four basins of Golestan province: Qaresoo, Mohammad Abad, Zarin Gol and Gharn Abad)	<b>Kamkar, B</b>	Abdi, O	2015	M.Sc.	GUANSR
59	Elahe Komshikamar	Assessment of land suitability of canola ( <i>Brassica napus L.</i> )- maize ( <i>Zea mays L.</i> ) rotation in four basins of Golestan province, Iran	<b>Kamkar, B</b>	Kazemi, H, and Dorri, MA	2016	M.Sc.	GUANSR
60	Rehaneh Yusefzadeh Moghani	The effects of water type and nitrogen levels interaction on the yield and early maturity of cotton (Khordad variety)	<b>Kamkar, B</b>	Kazemi, H, and Ahmadian, A	2016	M.Sc.	GUANSR
61	Raziyeh Shahimoridi	Evaluation of agricultural sustainable development in Golestan province by Geographical Information System (GIS)	Kazemi, H	<b>Kamkar, B</b>	2016	M.Sc.	GUANSR
62	Alireza Razghandi	Identification of resistant biotypes to aryloxy phenoxy propionate and acetolactate synthase inhibitors in wheat fields inhibitors in wheat fields of Ali Abad-e Katool and preparing their distribution map	Gherekhloo, J	<b>Kamkar, B</b>	2016	M.Sc.	GUANSR
63	Fahimeh Maleki	Agro-ecological zoning of Azad Shahr township for saffron ( <i>Crocus sativus L.</i> ) cultivation using Geographical Information System (GIS)	Kazemi, H	Siahmargoei, A, and <b>Kamkar, B</b>	2016	M.Sc.	GUANSR

And more than 20 other dissertations

## Scientific Projects

Row	Title	Level	ID	Authors	Year
1	A study on the effect of soybean and cotton residues on nitrogen mineralization and some microbial communities' dynamism	University	87-3-175	Behnam Kamkar, Reza Ghorbani Nasrabadi, Seyed Majid Alimaghams, Tayebeh Ebrahimi	2008
2	The effect of different litters on the dynamism of soil nitrate and ammonia and wheat yield	University	89-3-231	Behnam Kamkar, Seyed Alireza Movahedi Naeini, Alireza Safahani Langroudi	2010
3	Simulating wheat growth and development using DSSAT, APSIM, and CropSyst models under Gorgan and Gonbad conditions	University	89-3-227	Afshin Soltani, Amir Hossein Mahroo-Kashani, Ali Dastmalchi, Vahid Maddah, Ebrahim Zeinali, Behnam Kamkar	2010
4	Bioprimer effect on safflower seeds germination, seedling establishment, and damping-off diseases ( <i>Pythium ultimum</i> TROE) control	University		Behnam Kamkar, Mohammad Entesari	2015
5	Wheat growth fields health assessment in the Gorgan basin	University		Behnam Kamkar, Naser Baghernai, Seyed Esmaeil Razavi	2012
6	Using GIS and CUMMOD model to evaluate the potential yield of cumin in suitable areas of Northern, Razavi, and Southern Khorasan provinces	University		Behnam Kamkar, Nasim Meghdadi	2013
7	Comparison of the yield estimation methods and yield map provided in wheat fields of four basins (Qaresoo, Mohammadabad, Zaringol, and Gharnabad) using GIS	University		Behnam Kamkar, Omid Abdi, Esmaeil Mohammadi Ahmad-Mahmoudi	2015
8	The investigating the status of the databases used in Gorgan University of Agricultural Sciences and Natural Resources, and compare the cost-effectiveness of online and offline databases	University		Behnam Kamkar, Mina Farajzadeh, Ali Akbar Poorahmad	2015
9	Using GIS and variable rate technique (VRT) to determine fertilizer requirement for field Gorgan	University		Behnam Kamkar, Nasim Meghdadi, Esmaeil Mohammadi Ahmad-Mahmoudi	2015
10	Zoning of susceptible areas for corn cultivation and mapping of maize seed a... under effect of inappropriate temperatures around at thesis stage using GIS, RS and DSSAT model (A Case study: the Golestan province)	University		Behnam Kamkar, Mohammad Taghi Feyzbakhsh, Hassan Mokhtarpur	2016
11	Investigate the effects of environmental factors on the weeds diversity of wheat-grown fields using geographic information systems (GIS) and remote sensing (RS)	University		Behnam Kamkar, Ebrahim Zeinvand Lorestani, Meisam Ghasemi, Naser	2017

				Bagherani Torshiz and Sajjad Sadeghi Lotfabadi	
12	Evaluation of vegetative indices changes using Landsat 5 and Landsat 7 satellite images in four basins in Golestan province	University		Behnam Kamkar, Parisa Alizadeh	2019
13	Assessment of land suitability and the possibility of a potato– soybean rotation and investigation of the adaptation of the layers to the actual yield of the crops (Case study: four watershed basins, Golestan Province)	University		Behnam Kamkar, Nasibe Rezvantalab Parisa Alizadeh Dehkordi	2019
14	Determination of rice, cotton, and soybean-grown fields area in Golestan province	Out-of-university project		Behnam Kamkar, Omid Abdi, Parisa Alizadeh	2019
15	Determination of compliance of soybean-grown fields with land suitability maps using GIS and Remote Sensing	University		Behnam Kamkar, Parisa Alizadeh, Omid Abdi, Pooya Aalaee Bazkiaee	2021
16	Determination of compliance of cotton-grown fields with land suitability maps using GIS and Remote Sensing	University		Behnam Kamkar, Parisa Alizadeh, Omid Abdi, Pooya Aalaee Bazkiaee	2021
17	Studying the changes in rice yield and water balance in Guilan Province affected by Climate Change (Case study: Rasht City)	University		Behnam Kamkar, Pooya Aalaee Bazkiaee Ebrahim Amiri, Parisa Alizadeh Dehkordi	2021
18	Determination of rice, cotton, and soybean-grown fields area in Golestan province	Out-of-university project		Behnam Kamkar, Omid Abdi, Parisa Alizadeh	2019
19	Agro-ecological zoning for rainfed wheat cultivation in current and future conditions using geographical information system in Iran	FUM University	57437	Behnam Kamkar, Parisa Alizadeh Dehkordi, Alireza Nehbandani	
20	Determination of the optimal level of herbicides application according to the chemical properties of water (acidity, salinity, and pH) to reduce the	FUM University	54926	Behnam Kamkar, Sajjad Mijani	

	consumption and maximize their efficiency (A case study: Mashhad plain)				
--	---	--	--	--	--

### **The key speaker in National Congresses:**

- 1-New design of planting patterns with a look at land management . 2018.Third International Congress and 15th National Congress of Agronomy and Plant Breeding, Research Institute of Seedlings and Seed Breeding. Karaj, Iran.04 Sep. 2018.
- 2- Passive defense in the field of agriculture. 2019. Passive Defense Conference. Kermanshah Azad University. 03 November 2019.
- 3- An analysis of the 12 principles of sustainability in Iranian agricultural systems (keynote speech). 2020. 16th National Congress of Agricultural Sciences and Plant Breeding of Iran. Khuzestan University of Agricultural Sciences and Natural Resources. 25 January 2020.
- 4-Compatible food ecosystem systems for arid and semi-arid regions with the focus on increasing resource productivity (especially water) and improving livelihoods. 2021. The first national conference on irrigation deficiency and the use of unconventional water in agriculture in arid regions. The Ferdowsi University of Mashhad, 18 Feb 2021.

### **National workshops as a lecturer:**

- 1-General concepts of GIS for agricultural and natural sciences (In collaboration with Gorgan University of Agricultural Sciences and Natural Resources). 1993.
- 2- Cropping pattern design and planning workshop. 2020. 16th Iranian Congress of Agriculture and Plant Breeding. 25-27 Jan 2020.
- 3- Applied elementary workshop on the use of geographic information systems in Agriculture. In collaboration with the Crop Science Society of Iran (CSSI). Oct. 2020- Jan 2021.
- 4- Applied workshop on using geographic information systems in agriculture (introductory). In collaboration with the Crop Science Society of Iran (CSSI). Jan 2022-May 2022.
- 5- The basics of crop simulation models (development, growth, and yield)(a theoretical and practical workshop). In collaboration with the Crop Science Society of Iran (CSSI). Sept 2021-Jan 2022.
- 6- Classic and geostatistical-based interpolation methods in GIS environment for agriculture use. August 2022. In collaboration with the Crop Science Society of Iran (CSSI).
- 7- The methods of detecting agricultural lands using satellite images. 2022. In collaboration with the Crop Science Society of Iran (CSSI). 21 Jan 2022.

### **International Workshops and lectures**

- Applied elementary workshop on the use of geographic information systems in agriculture 24 – 27 July & 02 – 04 August 2023. Kassel University, Germany.
- Detecting agricultural lands by satellite-imagery (concepts and methods). 07 – 11 August 2023. Kassel University, Germany.
- “**Spatial-temporal data usage in sustainable agriculture**”. A public lecture o the first week of July 2023. Kassel University, Germany.
